The Wildcard

Introduction

This year IMG is recruiting talented developers from second years who have a constant desire to learn and grow. We are looking for an eternal aptitude besides the skillset from the sophomore year.

Overview

Second years who desire to be a part of IMG need to showcase their past projects (portfolio) and submit a piece of work that is to be completed during the winters. For the winter assignment, you can submit [RetroCraft Hub](#). We will soon be uploading a submission form where you can submit your Resume (portfolio) along with winter assignment.

Still, have a Question? Ask Us!

We at IMG are here to help throughout your development from a learner to a web developer. Just ping us at any point if you are stuck; we surely like to stick to the motto, "Help will always be provided to those who ask for it."

Remark: Please post your queries on the [discord server.](#) We would be delighted to see your progress. Even if you don't reach the end, what's most important is that you learned something new. That's all that matters to us. We're always looking for talented developers and designers who have a constant desire to learn and grow. So, please submit your code to us via a GitHub link for a public repository. If your hard work is reflected in your code, you may even get a chance to directly appear for recruitment interviews.
